

**When your health
needs are high, the
quality of care really
matters**

Nurse Maude Hospital
specialises in hospital-level
aged care and complex
long-term nursing

Nurse Maude
Hospital

Nurse Maude has cared for the people of Canterbury since 1896. While much of our nursing and care is in the community, complex health needs demand excellent hospital level care.

The Nurse Maude Hospital is founded on the partnership, respect, compassion and nursing excellence. Our job is to make a real home for our residents ... a place where they can enjoy the same sense of purpose, fun, meaning, control and dignity as they would in their own homes.

We also offer respite care with a seamless transition to long-term care if needed.
