

## FUNDAMENTALS OF PALLIATIVE CARE

**Venue:** Ballroom, McDougall House  
24 McDougall Ave, Merivale

The Fundamentals programme is for healthcare professionals and caregivers and aims to provide education and resources to enable the provision of skilled and competent palliative care.

The programme is delivered via a blended model of learning, consisting of 5 online modules and 3 face to face workshops. **Complete the online modules first**, starting with Essence, then you can book to attend the workshops at Nurse Maude. There is no cost for this programme.

There is further information about the Fundamentals of Palliative Care Programme on The Hospice New Zealand website [www.hospice.org.nz/education-training/training-modules](http://www.hospice.org.nz/education-training/training-modules)

Register for the online modules at <https://knowledgehub.elearning.org.nz/>

# PALLIATIVE CARE EDUCATION 2024

## PALLIATIVE CARE COURSES AND WORKSHOPS

Nurse Maude Hospice Palliative Care Service is committed to ensuring that those providing care to patients with life-limiting illness feel confident in their skills and knowledge and have access to appropriate education and support.

We offer a variety of courses and workshops for health professionals and carers. We can also work with you to tailor education to meet your needs.

## SYRINGE DRIVER COMPETENCY PROGRAMME

**Venue:** Boardroom, McDougall House  
24 McDougall Ave, Merivale

The Hospice New Zealand Syringe Driver Competency Programme is for registered and enrolled nurses and develops the knowledge and skills required to manage subcutaneous infusions using the Niki T34 / Bodyguard T syringe driver.

Initial certification provides 4 hours of professional development and involves completion of pre-reading, attendance at a two-hour workshop, demonstration of practical competence and completion of a written test. Certification is maintained by attending a 2 yearly update.

## TE ARA WHAKAPIRI EDUCATION

**Venue:** Ballroom, McDougall House  
24 McDougall Ave, Merivale

Te Ara Whakapiri is used in the last days of life. It aims to optimise symptom management alongside holistic care. This session is ideal for nurses and caregivers new to palliative and end of life care and includes diagnosing dying, how to use the toolkit, medication management and how to provide family support.

## FOUNDATIONS IN PALLIATIVE CARE

**Venue:** Ballroom, McDougall House  
24 McDougall Ave, Merivale

This 1-day workshop for nurses and allied health professionals aims to increase knowledge and understanding of the palliative approach and includes:

- Principles of Palliative Care
- Pain and Symptom Management
- Care in the Last Days of Life
- Communication and Goals of Care
- Grief, Loss and Bereavement Support
- Spiritual Care

## PALLIATIVE CARE FOR CAREGIVERS

This Hospice New Zealand education programme is an alternative to Fundamentals of Palliative Care and helps caregivers, working in all care settings, explore their role in providing palliative care.

The course consists of four 90-minute seminars and is usually delivered on site to a group of 10 -15 caregivers. There is a small cost for the course workbook.

*This programme is not intended for registered nurses who should either complete Fundamentals of Palliative Care or Foundations in Palliative Care*
